

Apple TV Apps

- [\[\] \[\] \[\] Apple TV sign-in \(Jellyfin\)](#)

📺 Apple TV sign-in (Jellyfin)

For: Apple TV HD/4K (tvOS).

📌 Before you start

- **Be sure you are an active member on the Discord.**
- Install your preferred tvOS app.

Suggested app(s) for this platform

- **Recommended:** Swiftfin (official). [See details](#)
- **Alternative:** Infuse (paid) with Jellyfin integration. [See details](#)

🔗 Connect the app to our server

1. Open your chosen app.
2. Select **Add Server** or **Manual** entry.
3. Enter this address exactly:

```
https://jellyfin.blackbeardsvault.com
```

4. Leave **Port** blank and connect.
5. Sign in with the **Username** and **Password** you received on Discord.

Important: Use `https` (with the `s`) and no trailing `/`.

☐☐ Troubleshooting

Quick Connect: If shown, ignore it and use the server address above.

Old server saved: Remove old servers and add ours again.

☐☐ Need help?

Message [@Captain Cruv](#) in [#support-channel](#) on Discord.
