

Amazon Fire TV sign-in (Jellyfin)

For: Fire TV Stick and Fire TV Edition TVs.

Before you start

- Be sure you are an active member on the Discord.
- Open the **Amazon Appstore** and install **Jellyfin**.

Suggested app(s) for this platform

- **Recommended:** Jellyfin app from Amazon Appstore. [See details](#)

Heads-up: The official Jellyfin app is free in the Amazon Appstore.

Connect the app to our server

1. Open Jellyfin. If you see an intro screen, select **Skip**.
2. Select **Add Server** or **Enter Manually**.
3. In **Host**, enter this address exactly:

```
https://jellyfin.blackbeardsvault.com
```

4. Leave **Port** blank, then select **Connect**.
5. Sign in with the **Username** and **Password** you received on Discord.

Important: Use `https`; do not add a trailing `/`.

☐☐ Troubleshooting

☐ **Quick Connect:** If it appears, ignore it and use the server address above.

☐ **Old server saved:** Remove old server entries or reinstall the app, then add ours again.
